SUMMARY

Computer Science undergraduate with strong foundations in **C++** and **Data Structures**, currently developing applied skills in **Machine Learning** and data-driven problem-solving. Seeking an internship role in technology or analytics to apply programming, analytical thinking, and continuous learning in real-world projects.

INTERNSHIPS

Machine Learning Trainee, RDSO (Indian Railways) June 2024 - July 2024
Lucknow

- **Created** a Train Delay Prediction model using **scikit-learn**, achieving approximately **82% accuracy**.
- Performed **data preprocessing**, **feature engineering**, and model evaluation on **1,000+** historical train records.
- **Enhanced** preprocessing pipeline, reducing data handling time by **20%**.

Technical Content Writer, TpointTech February 2025 - July 2025
Remote

- **Authored** 3 technical articles selected for publication, reaching **1,000+** readers.
- Researched and wrote content on emerging technologies for knowledge sharing.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering November 2022 - July 2026
Panjab University, UIET-Hoshiarpur, Punjab
CGPA: 7.91

Intermediate (12th) in PCM April 2019 - July 2020
Rani Laxmi Bai Memorial School, CBSE, Lucknow
Percentage: 93.6%

High School (10th) April 2017 - May 2018
Rani Laxmi Bai Memorial School, CBSE, Lucknow
Percentage: 92.8%

TECHNICAL SKILLS

• C++ • SQL • MS Excel • Git, GitHub • PostgreSQL
• Vercel • Data Structures • Object-Oriented Programming

PROFESSIONAL SKILLS

• Collaboration • Analytical Thinking • Adaptability
• Problem Solving • Creativity • Communication

PROJECTS

Train Delay Predictor (ML, Python, PostgreSQL) GitHub Link | Live Demo

- Formulated a **supervised ML** model to predict train delays, analyzing **1,000+** historical records with Scikit-learn to achieve **approximately 82%** accuracy.
- Integrated a **PostgreSQL** database for storing user predictions and enabled login/registration with email verification, enhancing reliability and user trust.
- Deployed a Flask-based web interface that processed **200+** test queries, providing real-time prediction and visualization to end users.

It's Rishi (Portfolio Website) (JavaScript, HTML, CSS) GitHub Link | Live Demo

- Designed a fully responsive personal portfolio to showcase projects, certifications, and technical skills.
- Curated and organized project documentation and GitHub links to demonstrate applied problem-solving skills, learning progression in AI/ML, and technical credibility.

CERTIFICATIONS

• **Introduction to Artificial Intelligence** - Infosys Springboard (January 2026)
• **Data Structures and Algorithms** - Infosys Springboard (January 2026)
• **Python for Data Science** - IIT Madras (NPTEL) (February 2025)
• **Software Engineering Job Simulation** - Accenture (Forage) (August 2025)

ACHIEVEMENTS

• **Technical Lead, Training & Placement Cell** (January 2025)
• **Head, Annual Sports Meet** (February 2025)

LANGUAGES

• **English** - Fluent
• **Hindi** - Native
